## OBJECTIVE

Experienced Flutter developer with a strong foundation in app development, seeking a position where I can leverage my expertise in creating innovative mobile solutions using Flutter, Dart, Node.js, Express.js, Hive, MongoDB and Firebase technologies.

## EDUCATION

<b>10th</b> , MP Board	8.2 CGPA / 2020
<b>Diploma in Computer Science</b> , RGPV Bhopal	8.77 CGPA / 2020-2023
<b>Bachelor of Computer Science</b> , LNCT Bhopal	Expected 2026

## SKILLS

<b>Technical Skills</b>	Flutter, Dart, Swift, Git-Github, Firebase, Node.js, Mongo DB, Hive, CICD Pipeline
<b>Soft Skills</b>	English, Hindi, Marathi
<b>Tools</b>	VS code, Android Studio, Xcode, Postman, Flutter DevTools

## EXPERIENCE

<b>Flutter Intern</b> Spotrental Bhopal	Nov 2022 - Mar 2023 <i>Bhopal MP</i>
--	---

Here I worked on the live Spotbuy project, a platform for buying and selling second-hand vehicles. My contributions included integrating firebase for the vehicle registration of platform and displaying to other users. This experience provided valuable insights into the automotive industry and the challenges of building a successful e-commerce platform.

<b>Jr. Flutter Developer</b> Livinart Technologies PVT LTD.	Jul 2023 - Oct 2023 <i>Bhopal MP</i>
--	---

Here I worked independently on several projects at Livinart, including an LMS and an Invoice Management system. During these projects, I gained hands-on experience with Flutter, Firebase, REST APIs, and CI/CD pipelines. This experience has equipped me with strong technical skills and the ability to work autonomously on complex projects.

<b>Flutter Intern</b> Milcko.	Oct 2024 - April 2025 <i>Bhopal MP</i>
----------------------------------	---

I worked independently on several projects at Milcko, an incubated company in an incubation center, focusing on consumer and farmer-centric applications. During these projects, I gained hands-on experience with Flutter, Firebase, Git/GitHub, and CI/CD pipelines. This experience has strengthened my technical expertise and ability to work autonomously on complex, real-world applications.

<b>Flutter Intern</b> Idea Usher.	Aug 2025 - Present <i>Remote - Mohali PB</i>
--------------------------------------	---

I am currently working as a Flutter Intern at IdeaUsher, contributing to international client projects focused on scalable, production-grade mobile applications. I lead the Flutter development for assigned modules, collaborating closely with backend engineers, UI/UX designers, and project managers to deliver high-quality features.

## PROJECTS

**CampusWay.** Available on the Play Store, CampusWay is a college community platform that enables students to collaborate by sharing notes and assignments, register for public/private sports events, and connect via in-app chat. ([Play Store](#))

**TechStuff.** A tech e-commerce application that helps users compare prices, explore computer accessories, desktops, and complete systems, and make secure purchase decisions through a streamlined interface.

**Heystallers.** Developed a food discovery mobile app enabling users to explore local food stalls, read reviews, and share experiences. Built using Flutter, Firebase, Node.js, Express.js, and MongoDB with a focus on scalability and clean UI design. ([Play Store](#))

**Flimaxads.** Developed a business management mobile application for a Saudi Arabia-based client. Implemented real-time notifications, digital payments, and internationalization features while collaborating within a cross-functional team. Built using Flutter, Firebase, REST APIs, and multiple payment gateways. (Freelance)

**Travault.** A travel discovery application featuring an Instagram-style feed with custom score-based ranking and cursor-based pagination using Cloud Firestore. Designed an optimized NoSQL data model supporting Following/Explore feeds and geo-tagged “Save Spot” functionality. Built using Flutter and Firebase with a focus on scalable architecture and performance optimization. ([Play Store](#))

**AFEIAS.** Developed a mobile application for civil services aspirants, integrating Flutter, Firebase, and REST APIs to deliver structured educational content. The app has surpassed 500k+ downloads on Google Play Store. ([Play Store](#)) ([App Store](#))
